

Daimler Insurance Services GmbH

## Actuary/Insurance Analyst (f/m) in Berlin / final destination Stuttgart

**Daimler Insurance Services ist der Versicherungsdienstleister der Daimler AG. Der weltweite Aus- und Aufbau der automobilen Versicherungen steht im Mittelpunkt der Aktivitäten. Daimler Insurance Services ist darüber hinaus verantwortlich für die betrieblichen Versicherungen aller Daimler-Produktionsstandorte und für die Altersvorsorge der Belegschaft in Deutschland.**

### Tasks:

- Obtain pre-defined (non-life) statistical information from selected insurance companies across the globe and validate information
- Assess sustainability of Global Automotive Insurance programs (i. e. premium rates required and cash reserves and liabilities necessary to ensure payment of future claims)
- Collaborate with program managers, underwriters, accountants, claims experts and senior management to help companies develop plans for new lines of business or improving existing business lines
- Structure insurance statistical data in order to provide input for strategic discussions. Cross examination of data tailored towards specific needs and as input for discussion with Global/Regional/Local insurance management, vehicle sales, after sales
- Develop and maintain databases on relevant information
- Provide technical expertise, research and direction on specific insurance coverages, loss prevention techniques, and/or supervises a geographic portfolio of claims related to specific coverage(s) with limited direction
- Explain complex technical matters to company executives, local management (program comparisons, alternative risk finance solutions)
- Compile and publish performance reports (quantitative, qualitative including interpretation and performance improvement recommendations)

### Requirements:

- Candidate needs a university degree with a strong background in mathematics and statistics, actuary degree preferred, courses in insurance law and accounting desired
- Strong written and oral communication skills as this position will require frequent interaction with senior management as well as individuals outside of the organization
- Highly numerate with the ability to analyse complex country motor insurance portfolios
- Experience in project management
- Candidate must possess the organizational skills and discipline required to integrate division level activities to leverage strengths and promote success in all areas of business development operations
- High cross-cultural working experience and sensitivity (min. 1 year spent abroad)
- SAS or SPSS or similar analytical database tools
- Dynamic character, highly organised, ability to stay calm under pressure, excellent presentation skills, social competence
- Fluent and negotiation proof in both English and German, ideally third language
