

How could you take your studies to new heights?

- By thinking about things that nobody has ever thought about before
- When you write a dissertation about the highest building on earth
- With an internship where you assess natural hazards at popular tourist destinations

INNOVATION MANAGEMENT INTERN (m/f)*

REINSURANCE DEVELOPMENT DIVISION

Innovation Management is part of Munich Re's Reinsurance Development Division. This is where we work at shaping the insurance world of tomorrow with the goal of developing new digital business opportunities for Munich Re. To do this, we cooperate with external and internal international partners, send project teams into our lab and apply modern management methods such as Scrum and Sprint. Our Innovation Scouts in Silicon Valley and Tel Aviv keep us up to speed with breaking developments. Become part of our global innovation team and help shape the future of Munich Re too.

We are continuously seeking interns to support our projects for four to six months, and can offer them exciting development opportunities. We also have a number of part-time positions for motivated students who are keen to continue working for us after a full-time internship and pursue their studies at the same time.

YOUR TASKS

- Collaborate in the conception, assessment and implementation of innovation projects
- Support the innovation process in market research, pain point and customer validation and market/solution fit
- Drive the further development of idea generation (ideation)
- Support operational work and our project teams in our LAB, host LAB operations and assist in planning, organising and implementing internal and external innovation events

YOUR PROFILE

- Current master's student with an above-average bachelor's degree and a keen interest in the fields of innovation, insurance, entrepreneurship and digitisation
- Initial practical experience with a startup or in corporate innovation management, consulting or the IT area
- High affinity with technical topics, ideally data analytics or coding competence
- Creativity, openness, communication skills and eagerness to join an international and interdisciplinary team
- Fluency in spoken and written English, sound working knowledge of Microsoft Office applications

Munich Re is one of the world's leading reinsurance companies with more than 11,000 employees at over 50 locations around the globe. We are working on topics today that will concern the whole of society tomorrow, whether that be climate change, major construction projects, gene technology or space travel. We find solutions to these challenges through a network of highly qualified professionals who anticipate risks, work on tailor-made solutions and expertly advise our clients. If you want to help shape the future as part of one of our teams, we look forward to hearing from you.
